ABOUT BLIXT & CO.

Teton Valley, Idaho boasts a rich agricultural history with some of the most stunning views of the Grand Tetons.

Helmed by Lars & Jennifer Magnusson, Blixt & Co. has brought the traditional Driven Shooting to America. The Blixt & Co. team proved that not only is traditional Driven Shooting possible in North America, but an authentic experience that make customers return again and again.

Tucked within the rolling farmlands of Eastern Idaho, the deep canyons with stands of aspen and pine wend through the landscape. Carefully placed cover crops, designed by the Gamekeepers and planted on the tops of the canyons, create the perfect habitat for the pheasant and partridge. The majestic Grand Tetons set the stage for one of the most unique sporting experiences available in the US.
