COVEY RISE DREAM HUNTS

ABOUT BLIXT & CO.

Blixt & Co. has brought the traditional Driven Shooting to America. The Blixt & Co. team proved that not only is traditional Driven Shooting possible in North America, but it is an authentic experience that make customers return again and again.

Situated in Teton Valley, Idaho, Blixt & Co. has some of the most stunning views of the Grand Tetons. Surrounded by deep canyons and aspen and and forests, shooters pursue high, fast birds in traditional English-style driven shooting.

A day in the Field at Blixt and Co:

Each shoot accommodates a line of 8 guns, and all days are offered based on a “no-bag limit” and will include 6 drives per shoot day. The shooting setting will include both wide open landscapes and steep valleys, which vary in depth, giving every level of shooter the ultimate excitement of challenging shooting.

During the shoot you will be hosted by the “Shoot Captain”, your personal loader, a 25 man strong team of beaters and dog handlers, all directed by Blixt’s English game keeper whom will make the most to present shooters with a great day in the field.

A typical day starts with breakfast at the Lodge, then on to the field to meet the loaders and the rest of the team. After the customary safety speech and drawing of pegs, the party mount up in the Gun Bus to move from drive to drive. There will be two drives in the morning before the guns stop for elevenses, and two more drives before lunch. Lunch is served in the field, under a safari tent placed in a wooded grove setting. After lunch, the day continues with the two final drives of the day, before heading back to the Lodge for afternoon cocktails.

DRIVEN SHOOTING ADVICE

It is always nice to go into any situation prepared and knowing what to expect. The driven shooting sports have their own set of guidelines created to make everyone feel comfortable so that your experience is as enjoyable as possible. Blixt provides a general outline of tips and thoughts from Dress and Etiquette, Sportsmanship, Picking Up, and Safely -- learn about this here:
